Report on Review of Interim Financial Information

To: The Board of Directors of Orascom Telecom, Media and Technology Holding S.A.E.

Introduction

We have reviewed the accompanying condensed consolidated interim financial statements of Orascom Telecom, Media and Technology Holding S.A.E. and its subsidiaries (The Group) which comprise the condensed consolidated interim statement of financial position as at September 30, 2014 and the related condensed consolidated interim statements of income & comprehensive income, changes in equity and cash flows for the nine months period then ended, and a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and presentation of these condensed consolidated interim financial statements in accordance with IAS (34) "Interim Financial Reporting". Our responsibility is to express a conclusion on these condensed consolidated interim financial statements based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements (2410) "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial statements do not present fairly, in all material respects, the condensed consolidated financial position of Orascom Telecom, Media and Technology Holding S.A.E as at September 30, 2014 and of its financial performance and of its cash flows for the nine months period then ended in accordance with IAS (34) "Interim Financial Reporting".

Emphasis of matters

- We draw attention to note (22) to the accompanying condensed consolidated interim financial statements which describes in more details that the net assets of Koryolink (a subsidiary) equivalent to USD 745 million of the Group's consolidated net assets amounting to USD 1,168 million as of September 30, 2014. Also Koryolink assets include restricted deposits balances in North Korean currency equivalent to USD 544 million and are reported within non-current financial assets in the condensed consolidated interim financial statements (Note 12) due to the restrictions imposed on cash transfers from the local currency into foreign currency, and the exchange rates in North Korea.
- We draw attention to note (10) to the accompanying condensed consolidated interim financial statements which describes in more details that according to management's best estimate, and in light of the available information, there are no differences between the tax basis and accounting basis of the recognized assets and liabilities related to the Group's subsidiary in North Korea (Koryolink) that may result in the recognition of any deferred tax assets or liabilities as at September 30, 2014. Management believes that in case any additional information develops in future periods, that would give rise to such differences on the assets or liabilities recognized in the financial statements as of September 30, 2014, management would revise its estimates and recognition of deferred taxes associated with those assets and liabilities might be required.

Our conclusion on the accompanying condensed consolidated interim financial statements as of September 30, 2014 is not qualified in respect to the matters referred to in the above paragraphs.

Orascom Telecom Media and Technology Holding S.A.E. ("OTMT" or the "Company") is a joint stock company with its head office in Cairo, Egypt. The Company was established on 29 November 2011 (the "inception") and until this date the businesses of the Company were performed under various entities which were controlled by Orascom Telecom Holding, S.A.E. ("OTH"). As part of a larger transaction pursuant to which VimpelCom Ltd had acquired OTH, its shareholders agreed to affect the demerger, whereby, OTH was split into two companies, OTH and the Company ("Demerger"). The Demerger resulted in the transfer of certain telecom, cable and media and technology assets (the "OTMT Assets") to the Company.

The Company and the OTMT Assets (together the "Group") are a mobile telecommunications business operating in high growth emerging markets in the Middle East, Africa and Asia. The Company is a subsidiary of Orascom Telecom Media and Technology Investments S.à.r.l. (the "Ultimate Parent Company").

The Company's shares are listed on the Egyptian Stock Exchange and its GDRs are listed on the London Stock Exchange.

The information presented in this document has been presented in thousands of United States Dollar ("US\$"), except earnings per share and unless otherwise stated.

2. Statement of compliance

These condensed consolidated interim financial statements as of September 30, 2014 have been prepared in accordance with IAS 34 "Interim Financial Reporting". As permitted by IAS 34, the Company has opted to prepare a condensed version as compared to the consolidated financial statements as of December 31, 2013. The condensed consolidated interim financial statements do not include all of the information required for the full annual financial statements, and should be read in conjunction with the consolidated financial statements for the year ended December 31, 2013, which have been prepared in accordance with IFRSs.

This condensed consolidated interim financial information was approved for issue on November 13, 2014. The financial statements are not the statutory financial statements of the company, as the statutory financial statements are prepared in accordance with the Egyptian Accounting Standards.

3. Significant accounting policies

The accounting policies adopted for the preparation of the condensed consolidated interim financial information are consistent with those used in the consolidated financial statements as of and for the period ended December 31, 2013. The accounting policies have been consistently applied to all the periods presented.

A. Adoption of new and revised International Financial Reporting Standards

T

The preparation of the condensed consolidated interim financial statements requires that the directors apply accounting policies and methodologies that, in some circumstances, are based upon complex and subjective judgments and estimates that are based on historical experience and assumptions that are considered to be reasonable and realistic at the time, considering the relevant circumstances. The application of such estimates and assumptions impacts the amounts recorded in the consolidated statement of financial position, the consolidated income statement, the consolidated statement of comprehensive income and cash flows, as well as in the notes. Actual results might differ from such estimates due to the uncertainty surrounding the assumptions and conditions upon which estimates are based.

In preparing these condensed consolidated interim financial statements, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those applied to the consolidated financial statements for the year ended December 31, 2013.

5. Segment reporting

The chief operating decision-maker has been identified as the board of directors of the Company. The board of directors reviews the Group's internal reporting in order to assess its performance and allocate resources, mainly from a geographical perspective, of the mobile telecommunication business. OTMT management has determined the reportable operating segments according to the information analysed by the chief operating decision-maker as follows:

- *GSM North Korea*: relating to the mobile telecommunication operations performed in North Korea through the operator Koryolink.
- *GSM Lebanon*: relating to the management contract of the Lebanese mobile telecommunications operator Alfa which is owned by the Republic of Lebanon.
- Cable: relating to the provision of direct broadband and high-speed connectivity to telecom
 operators, internet service providers and major corporations through submarine fibre optic
 cables.
- Media & Technology: relating mainly to the provision of online advertising and content to corporate customer, mobile value added services and software development and hosting of corporate clients.
- Other: relating to the Group's equity accounting investment and income and expenses related to OTMT.

The Group reports on operating segments which are independently managed. The chief operating decision-maker assesses the performance of such operating segments based on:

- Total revenue
- EBITDA, defined as profit for the period before income tax expense /(benefit) (or if applicable profit from continuing operations for the period before income tax expense /(benefit)), gain on partial disposal of investments in associate, share of profit of equity investments, foreign exchange gains /(loss), financial expense, financial income, disposal of non-current assets, impairment charges and depreciation and amortisation, and
- Segment capital expenditure which is the total cost incurred during the period to acquire property and equipment and intangible assets other than goodwill.

The information provided to the chief operating decision-maker is measured consistently with that of the financial statements.

Koryolink, the Group's subsidiary in North Korea, enjoyed a tax exemption for a period of five years ended in December 2013. After the elapse of exemption period the subsidiary's net profits is subject to tax according to the tax rules applicable to foreign investment in North Korea. During the tax exemption period, the subsidiary is not required to submit its tax returns according to the applicable tax laws.

The Company has paid an amount equivalent to USD 28,341 thousand under tax settlement until preparation of the tax return of the Company for the year ended December 31, 2014 which represents the first fiscal year subject to tax after the elapse of the exemption period.

In the absence of specific legal requirements or information of any adjustments required to net accounting profits for the purposes of calculating the income tax according to tax law on the foreign activities in North Korea, and in the absence of any sources of reliable information in similar situations of other foreign activities, in accordance with the limited information available, Management believes that there are no differences between the tax basis and the accounting basis of assets and liabilities recorded in the financial statements of the subsidiary at the date of the consolidated financial statements, accordingly no deferred tax assets or liabilities have been recognized.

Should additional information arise in future periods resulting in differences between the tax bases and accounting base of recorded assets and liabilities in the financial statements as at September 30, 2014, Management will reassess its estimate in a way that might result in the recognition of deferred taxes related to those assets and liabilities.

Call / Put options with France Telecom

Represents the fair value of the put-option by which the company can sell its stake in the Egyptian Company for Mobile Services (ECMS) including the voting rights to France Telecom.

According to the amended and restated shareholders agreement between the Company and France Telecom dated 11 April 2012, the amended agreement states that the Company has the option to put 1.67% per annum of its direct interest in the ECMS over a three-year period from 2015 to 2017 subject to the trading rules of the Egyptian Stock Exchange - EGX and the then applicable law.

This option is exercisable in January-February of each such year at accreting prices determined based on the date of exercise ranging from EGP 268.5 in 2015 to EGP 296 in 2017 per ECMS share.

The agreement also provides that France Telecom has the option to call all (but not less than all) of the Company's remaining direct stake in Egyptian Company for Mobile Services - ECMS and in MT Telecom, which are reported in the condensed consolidated interim financial statements as investments in associates with direct ownership interest of 5% and 28.75% respectively. This option is exercisable during a January-February exercise period in each year from 2013 to 2017, ranging from EGP 243.5 to EGP 296 per ECMS share.

The fair value of both the put and call options is determined by an independent appraisal, using one of the valuation techniques acceptable in practice. The appraisal study has resulted in a derivative asset with a fair value of US\$ 166 million at the end of the current reporting period compared to US\$ 201 million in December 2013.

During the current period, a portion of the Company's right in exercising the put option referred to above in each of January and February 2015 was classified as a current asset with an amount of US\$ 39 million based on the evaluation performed by the independent valuator.

Deposits

Deposits as of September 30, 2014 include an amount of US\$ 544 million relating to cash held in North Korea in local currency which is subject to restrictions on use for certain operating and capital expenses in local currency only. The funds cannot be converted into Euro and cannot be repatriated overseas.

13. Cash and cash equivalent

The increase in cash and cash equivalent is represented in the increase in cash balances of the subsidiary company "Koryolink" during the period with an amount of US\$ 75,108 thousand due to the increase in cash collections from customers during the period, where the cash balance as at September 30, 2014 amounted to US\$ 175,710 thousand (December 31, 2013; US\$ 124,753 thousand).

 A guarantee issued to one of the subsidiary's clients amounting to USD 82 million to guarantee the subsidiary to fulfil its contractual obligations represented in performing the contracted services.

22. Group's activities in North Korea

T

The Group's operations in North Korea relate primarily to the 75% holding in the local telecom operator Koryolink.

North Korea is subject to international sanctions imposed by the European Union and the United States, among others, as well as by the United Nations. These sanctions have the effect of restricting financial transactions and the import and export of goods and services, including goods and services required to operate, maintain and develop mobile networks.

Whilst these sanctions do not currently have a material impact on the operations of Koryolink, the Company's operating subsidiary in North Korea, as it is a domestic mobile operator with minimal foreign interaction, there can be no assurance that if international sanctions are changed or subject to enhanced enforcement, the Company's operating subsidiary in North Korea will be able to finance its operations, transfer funds to and from the Company or operate its mobile network in North Korea. If the Group becomes unable to continue to operate its business in North Korea, then this could adversely affect the business, financial condition and results of operations of the Company.

North Korea has implemented currency control restrictions and, in particular, rules surrounding the repatriation of dividends to foreign investors, additionally the local currency of North Korea is not tradable outside the country. Such restrictions limit the level of dividends that can be paid to the Company from its North Korea operations. Whilst the Group has interests in a diverse range of business and is not currently dependent on, and does not expect to become dependent on its operations in North Korea to provide cash flow to service its obligations, meet committed CAPEX, obligations or continue its operations. In addition such currency control restrictions do not currently have a material impact on the Group and do not materially impact on the ability of the Group to service its liabilities which are currently outstanding and the Parent Company does not expect the impact of these restrictions on the Group to become material to the Group does not expect these restrictions to have a material effect on the on-going business of the Group.

The Company's management is currently in discussion with the Korean party about the transfer of the realized profits in the North Korean subsidiary into foreign currencies using the exchange rates announced by government and to transfer these profits to the Holding Company given the prevailing circumstances referred to above as well as the restrictions imposed on cash transfers from local Korean currency to foreign currencies and the restrictions on exchange rates in North Korea.

The net assets of Koryolink (a subsidiary) equivalent to US\$ 745 million of the Group's consolidated net assets amounting to US\$ 1,168 million as of September 30, 2014. Also Koryolink assets include cash balances in North Korean currency equivalent to US\$ 544 million and are reported within non-current financial assets in the condensed consolidated interim financial statements due to the restrictions imposed on cash transfers from the local currency into foreign currency, and the exchange rates in North Korea. The interim financial statements of the subsidiary were translated using the official exchange rate announced by North Korean banks as at September 30, 2014 and which is determined by Government noting that there is no free floating currency exchange market in North Korea.
