Report on Review of Condensed Interim Consolidated Financial Statements

To: The Board of Directors of Orascom Telecom, Media and Technology Holding (S.A.E)

Introduction

We have reviewed the accompanying condensed interim consolidated statement of financial position of Orascom Telecom, Media and Technology Holding (S.A.E) as of June 30, 2018 and the related condensed interim consolidated statements of profit and loss and other comprehensive income, changes in equity, and cash flows for the six-month then ended, and a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and fair presentation of these condensed interim consolidated financial statements in accordance with International Accounting Standard No. (34) "Interim Financial Reporting". Our responsibility is to express a conclusion on these condensed interim consolidated financial statements based on our limited review.

Scope of Limited Review

We conducted our review in accordance with Egyptian Standard on Review Engagements 2410, "Review of Interim Financial Statements Performed by the Independent Auditor of the Entity." A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters in the Company, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Egyptian Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion on these condensed interim consolidated financial statements.

Base of qualified conclusion

- As disclosed in more details in note (24) Beltone Financial Holding one of the company's subsidiaries is in the process of completing the final accounting treatment relating to the business combination of Auerbach Grayson Company which was acquired on 1 February 2017, despite the override of the allowed measurement period as required by IFRS (3) "Business combinations" which requires a measurement period of no longer than one year from the date of acquisition.
- The group management did not perform an assessment of the expected credit losses for its subsidiaries upon initial application of IFRS 9.

Hazem Hassan

Conclusion

Based on our review, except for the possible effects of such adjustments , as might have been determined to be necessary had we performed procedures to address the items set out above, nothing has come to our attention that causes us to believe that the accompanying condensed interim consolidated financial statements do not present fairly, in all material respects, the consolidated financial position of the company as at June 30, 2018 and of its consolidated financial performance and its consolidated cash flows for the six-month period then ended in accordance with International Accounting Standard No. (34) "Interim Financial Reporting".

The accompanying notes from (1) to (25) are an integral part of these condensed interim consolidated financial statements

1. **General information**

Orascom Telecom, Media and Technology Holding S.A.E. (“OTMT” or the “Company”) is a joint stock company with its head office in Cairo, Egypt. The Company was established on 29 November 2011 (the “inception”) and until this date the businesses of the Company were performed under various entities which were controlled by Orascom Telecom Holding, S.A.E. (“OTH”). As part of a larger transaction pursuant to which VimpelCom Ltd had acquired OTH, its shareholders agreed to affect the demerger, whereby, OTH was split into two companies, OTH and the Company (“Demerger”). The Demerger resulted in the transfer of certain telecom, cable and media and technology assets (the “OTMT Assets”) to the Company.

The Company and the OTMT Assets (together the “Group”) are a mobile telecommunications business operating in high growth emerging markets in the Middle East, Africa and Asia. The Company is a subsidiary of Orascom Telecom Media and Technology Investments S.à.r.l. (the “Ultimate Parent Company”).

The Company’s shares are listed on the Egyptian Stock Exchange and its GDRs are listed on the London Stock Exchange. The information presented in this document has been presented in thousands of United States Dollar (“US\$”), except earnings per share and unless otherwise stated.

2. **Statement of compliance**

These condensed interim consolidated financial statements as of June 30, 2018 have been prepared in accordance with IAS 34 “Interim Financial Reporting”. As permitted by IAS 34, the Company has opted to prepare a condensed version as compared to the consolidated financial statements as of December 31, 2017. The condensed interim consolidated financial statements do not include all of the information required for the full annual financial statements, and should be read in conjunction with the consolidated financial statements for the year ended December 31, 2017, which have been prepared in accordance with International Financial Reporting Standards (IFRSs).

This is the first set of the group's financial statements where IFRS 9, IFRS 15, IFRS 16 have been applied. Changes to significant accounting policies are described in Note 4.

These condensed interim consolidated financial information was approved for issue on January 30, 2019. The financial statements are not the statutory financial statements of the Company, as the statutory financial statements are prepared in accordance with the Egyptian Accounting Standards (EAS).

2.1 **Significant accounting policies**

The accounting policies adopted for the preparation of the condensed interim consolidated financial information are consistent with those used in the consolidated financial statements as of and for the period ended December 31, 2017 except for the impact of the new accounting policies related to the application of IFRS 9, IFRS 15 and IFRS 16 which are described in Note 4.

2.2 **Application of new and revised International Financial Reporting Standards (“IFRSs”)**

2.2.1 **New currently effective requirements**

Effective date	New standards or amendments
1 January 2018	IFRS 15 Revenue with contracts with customers
1 January 2018	IFRS 9 Financial Instruments
1 January 2019 (Early adopted by the Group from January 1, 2018)	IFRS 16 Leases
1 January 2018	Classification and Measurement of Share-based Payment Transactions (Amendments to IFRS 2)
1 January 2018	Transfers of Investment Property (Amendments to IAS 40)
1 January 2018	Annual Improvements to IFRSs 2014–2016 Cycle (Amendments to IFRS 1 and IAS 28)
1 January 2018	IFRIC 22 Foreign Currency Transactions and Advance Consideration

2.2.2 Forthcoming requirements

Effective date	New standards or amendments
1 January 2019	IFRIC 23 Uncertainty over Income Tax Treatments
1 January 2019	Prepayment Features with Negative Compensation (Amendments to IFRS 9)
1 January 2019	Long-term Interests in Associates and Joint Ventures (Amendments to IAS 28)
1 January 2019	Plan Amendments, Curtailment or Settlement (Amendments to IAS 19)
1 January 2019	Annual Improvements to IFRSs 2015–2017 Cycle (Amendments to IFRS 3, IFRS 11, IAS 12 and IAS 23)
1 January 2021	IFRS 17 Insurance Contracts
Available for optional adoption/ Effective date deferred indefinitely	Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (Amendments to IFRS 10 and IAS 28)

The Group is currently assessing whether these changes will affect the consolidated financial statements in the period of initial application.

3. Use of estimates

In preparing these interim financial statements, management has made judgements and estimates that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

The significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those described in the last annual financial statements, except for new significant judgements and key sources of estimation uncertainty related to the application of IFRS 9, IFRS 15 and IFRS 16 which are described in Note 4

4. Changes in significant accounting policies

Except as described below, the accounting policies applied in these interim financial statements are the same as those applied in the Group's consolidated financial statements as at and for the year ended 31 December 2017.

The changes in accounting policies are also expected to be reflected in the Group's consolidated financial statements as at and for the year ending 31 December 2018.

The Group has initially adopted IFRS 9 Financial Instruments (see A), IFRS 15 Revenue from Contracts with Customers (see B) and IFRS 16 Leases (see C) from 1 January 2018. A number of other new standards are effective from 1 January 2018 but they do not have a material effect on the Group's financial statements

A. IFRS 9 Financial Instruments

Classification and measurement

As of June 30, 2018, no significant impact has been identified for the classification and measurement except for equity instruments of Beltone Group which classified as available for sale (AFS) currently measured at Fair value.

Impairment

As of January 1, 2018, TWA might be impacted from the implementation of IFRS 9 for the new impairment rules related to the financial assets. The financial assets impacted should be trade receivables. However, considering the limited losses incurred in the past, the impact might not be significant.

Expected Credit Loss

The management could not finalize the liability ECL during interim period and will conclude the assessment by year-end financials where the expected effect of changes in liability's credit risk will be recognized in OCI.

Hedge accounting

The Group doesn't apply hedge accounting and accordingly it is not applicable at transition date.

Fair value estimation

The table below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

- The fair value of a financial instrument traded in active markets is based on quoted market prices at the reporting date. A market is regarded as active, if quoted prices are readily and regularly available from an exchange, dealer, broker, pricing service or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis. These instruments are included in level 1.
- The fair value of instruments that are not traded in an active market is determined by using valuation techniques. These valuation techniques maximise the use of observable market data where it is available and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in Level 2.
- If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3.

The following table sets forth the Group's financial assets and liabilities that are measured at fair value as of 30 June 2018 and 31 December 2017.

(in thousands of US\$)	June 30, 2018	December 31, 2017
	Level 1	Level 1
Assets		
Financial assets available for sale-at Fair value	3,182	1,285
Financial assets at fair value through profits or losses	1,258	61
Total assets	4,440	1,346

The Group did not measure any financial assets or liabilities as level 2 or level 3 fair value estimates

Assets carried at amortised cost

For loans and receivables category, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The carrying amount of the asset is reduced and the amount of the loss is recognised in the consolidated income statement. If a loan has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate determined under the contract. As a practical expedient, the Group may measure impairment on the basis of an instrument's fair value using an observable market price.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised (such as an improvement in the debtor's credit rating), the reversal of the previously recognised impairment loss is recognised in the consolidated income statement.

Financial liabilities and equity instruments

Debt and equity instruments issued by a Group entity are classified either as financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Group are recognised at the proceeds received, net of direct issue costs.

Financial liabilities

Financial liabilities consisting of borrowings, trade payables and other obligations are measured at amortised cost using the effective interest method. Financial liabilities are classified as current liabilities except where the Group has an unconditional right to defer payment until at least twelve months after the reporting date.

Financial liabilities are derecognised when settled and the Group has transferred all the related costs and risks relating to an instrument.

Derivative financial instruments and embedded derivatives

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured at their fair value. Fair value gains and losses on all of the Groups derivative financial instruments are recognised in the income statement within finance income and expense.

Derivatives embedded in non-derivative host contracts are treated as separate derivatives when their risks and characteristics are not closely related to those of the host contracts and the host contracts are not measured at fair value through profit or loss.

B. IFRS 15 Revenue from Contracts with Customers

The new Standard IFRS 15 establishes a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers. IFRS 15 will supersede the current revenue recognition guidance including IAS 18 Revenue, IAS 11 Construction Contracts and the related Interpretations when it becomes effective.

The core principle of IFRS 15 is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Specifically, the Standard introduces a 5-step approach to revenue.

Under IFRS 15, an entity recognizes revenue when (or as) a performance obligation is satisfied, i.e. when “control” of the goods or services underlying the particular performance obligation is transferred to the customer. Far more prescriptive guidance has been added in IFRS 15 to deal with specific scenarios. Furthermore, extensive disclosures are required by IFRS 15.

Unlike the scope of IAS 18, the recognition and measurement of interest income and dividend income from debt and equity investments are no longer within the scope of IFRS 15. Instead, they are within the scope of IAS 39 Financial Instruments.

The Group has adopted IFRS 15 using the cumulative effect method (Without practical expedients), with the effect of initially applying this standard recognized at the date of initial application, 1 January 2018. Accordingly, the information presented for 2017 has not been restated and presented as previously reported, under IAS 8, IAS 11 and related interpretations. Additionally, the disclosure requirements in IFRS15 has not generally been applied to comparative information.

The following summarizes the impact of net of tax of transition to IFRS15 on retained earnings and NCI. Mainly from Cable segment as originally TWA received an upfront payment against an IRU contract for a term of 15 years with its customer in 2014. The payment received was being amortized monthly on a straight line basis as per IAS 18. After, transition to IFRS 15, an implicit financing rate was calculated comparing the upfront payment received and the market value of services of similar nature. The contract term for the working was taken as 15 years since inception i.e. May 01, 2014.

(in thousands of US\$)	Impact of adoption IFRS 15 at 1 January 2018

Total Liabilities		266,873	739	266,134
Total Equity and Liabilities		547,685	-	547,685

Moreover IFRS 15 did not have a significant impact on the policies followed by the Group in recognising other revenue streams represented in:

Interconnection traffic

- Revenue arising from post-paid traffic, interconnection and roaming is recognised on the basis of the actual usage made by each subscriber and telephone operator. Such revenue includes amounts paid for access to and usage of the group network by customers and other domestic and international telephone operators;
- Revenue from the sale of prepaid cards and recharging is recognised on the basis of the prepaid traffic actually used by subscribers during the period. The unused portion of traffic at period end is recognised deferred income;

- One-off revenue from mobile (prepaid or subscription) activation and/or substitution, prepaid recharge fees and the activation of new services and tariff plans is recognised for the full amount at the moment of activation independent of the period in which the actual services are rendered by the Group. In the case of promotions with a cumulative plan still open at the end of the period, the activation fee is recognised on an accruals basis so as to match the revenue with the period in which the service may be used;
- Revenue from bandwidth capacity sales (Cable segment revenue) is recognised over the period of the contract on the basis of usage of bandwidth by the customers. Advances received from customers, for which the service has not yet been provided is disclosed as deferred income.

Revenue of the financial service section

- Revenue is recognized when performance obligation is met in financial service sector as follows:

Investment banking revenue

- The activities revenue is recognised that represented in security and investment banking fees for the companies when complete the implementation of the service.

Management fees of funds and portfolios

- Management fees are recognised as revenue on an accrual basis, as the services are rendered, in accordance with the contractual terms of each fund and portfolio.
- Incentive fees are recognised as revenue based on predetermined percentages agreed with clients, calculated by reference to the annual return on each fund or portfolio, but only to the extent that the amount of revenue can be measured reliably and it is probable that economic benefits will flow to the Group.

Commissions

- Sale commissions: represent commissions on sale of securities for clients in local or global stock exchanges, calculated at specified rates agreed with clients as a percentage of the sale transaction.
- Purchase commissions: represent commissions on purchase of securities for clients in local or global stock exchanges, calculated at specified rates agreed with clients as a percentage of the purchase transaction.

Custodian fees

- Custodian fees are recognised as the difference between fees collected from clients and those incurred or paid to custodians.
- They are recognised according to contracts signed with clients on accrual basis.
- They are recognised the commissions for collecting coupons for customers, the collection of these coupons are on behalf of the customers.

C. IFRS Leases

The new Standard provides a comprehensive model for the identification of lease arrangements and their treatment in the financial statements of both lessees and lessors. It supersedes IAS 17 Leases and its associated interpretative guidance.

IFRS 16 applies a control model to the identification of leases, distinguishing between leases and service contracts on the basis of whether there is an identified asset controlled by the customer.

Significant changes to lessee accounting are introduced, with the distinction between operating and finance leases removed and assets and liabilities recognized in respect of all leases (subject to limited exceptions for short-term leases and leases of low value assets). In contrast, the Standard does not include significant changes to the requirements for accounting by lessors.

The Group has early adopted IFRS 16 using the modified retrospective approach with the effect of initially applying this standard recognized at the date of initial application, 1 January 2018. Accordingly, the information presented for 2017 has not been restated and presented as previously reported. Based on the data gathering information and assumptions provided, the preliminary impact quantification of the lease liability is as follows:

Segment	Effect in million USD
Cables	5
Financial services	4.1
Other	0.2
Total	9.3

5. Segment reporting

The chief operating decision-maker has been identified as the board of directors of the Company. The board of directors reviews the Group's internal reporting in order to assess its performance and allocate resources, mainly from a geographical perspective, of the mobile telecommunication business. OTMT management has determined the reportable operating segments according to the information analysed by the chief operating decision-maker as follows:

- *Investment property*: investment properties relate to real estate property the Group owns in Sao Paolo, Brazil
- *GSM – Lebanon*: relating to the management contract of the Lebanese mobile telecommunications operator Alfa which is owned by the Republic of Lebanon.
- *Cable*: relating to the provision of direct broadband and high-speed connectivity to telecom operators, internet service providers and major corporations through submarine fibre optic cables.
- *Media & Technology*: relating mainly to the provision of online advertising and content to corporate customer, mobile value added services and software development and hosting of corporate clients.
- *Other*: relating to the Group's equity accounting investment and income and expenses related to OTMT.

The Group reports on operating segments which are independently managed. The chief operating decision-maker assesses the performance of such operating segments based on:

- Total revenue ;
- EBITDA, defined as profit for the period before income tax expense /(benefit) , share of profit of equity investments, foreign exchange gains/(loss), financial expense, financial income, disposal of non-current assets, impairment charges and depreciation and amortisation ;
- Segment capital expenditure which is the total cost incurred during the period to acquire property and equipment and intangible assets other than goodwill.

The information provided to the chief operating decision-maker is measured consistently with that of the interim financial statements.

Revenue and EBITDA disclosure per segment for the period ended June 30

	Six - month period 2018			Six - month period 2017

On September 11, 2017 the United Nations Security Council issued a resolution binding all Member States to prohibit all Joint Ventures or cooperative entities or expanding existing Joint Ventures with Democratic People's Republic of Korea (DPRK) entities or individuals unless an approval by the Security Council Committee is given to the effect of continuing to work as a Joint Venture. The company's management is of the opinion that its investments in North Korea represented in Etisalat Network for Mobile Phone Services is considered as a public utility and this kind of projects is likely to be excluded from this prohibition and allowed to continue in business. Subsequently Koryolink Company obtained an exception from the ban of foreign investments in North Korea pursuant to Paragraph no. 18 of the resolution of the Security Council no. 2375/2017, and permitting the company to continue its activity in North Korea, together with stipulating its consideration as an infrastructure company in the field of communications that provides a public service.

The following table presents the movement on the investment of koryolink during the period:

(In thousand US\$)	Six- month ended June 30, 2018	Six - month ended June 30, 2017
Beginning balance	235,752	122,685
Share of profit of associates	87,541	97,548
Dividends	-	(35,051)
Currency translation differences	(294)	233
